

East Boston Savings Bank's new branch, located on Main Street in Melrose, is a full service banking facility complete with drive up tellers and ATM's. A standing seam roof, brick facade, and most noticeably, a clerestory, add interest to the one story structure. Tall glass windows, curved interior details, and contemporary lighting and finishes create a new image for East Boston Savings Bank. The interior space houses partitioned work stations, a media center, greeter station, employee lounge, coffee bar, and private offices.
