

ABOUT US

DRL Associates, Inc. is a full service commercial architectural firm. Founded by Don Lonergan, AIA in 1984, the firm offers Design and Project Management services throughout the Northeast. Over the past 25 years, the firm has experienced steady growth. DRL now employs a staff of 15 industry professionals and boasts a portfolio comprised of hundreds of completed projects ranging from small renovations to large scale corporate headquarters.

DRL's scope of services includes Architecture and Interior Design, Master Planning, and Project Management. DRL utilizes the latest technologies available to the A/E/C industry. We can produce schematic design and construction documents quickly and accurately for our clients by utilizing complex 3D modeling or precision 2D designs.

Every phase of a construction project can be managed by DRL. From the initial site evaluation and meeting with local planning departments, to proposed interior design schemes and merchandising, DRL can do it for you. Construction services can be arranged either through our affiliates or by a managed bid process. DRL will work with you to ensure that only the most qualified contractors are hired to build your facility.

DRL Associates, Inc. is exceptionally flexible and able to handle projects of any size and scope. With 25 years of experience, DRL offers you an advantage that few architectural firms can match. When considering a new building or giving an existing facility a face lift, consider DRL Associates the right choice to manage your project.
